

Methodological Note for Disclosures of Transfer of Value

Prepared March 2022

This note describes the methodology used by Leadiant Biosciences Ltd to identify, collate and report transfers of value disclosures, in compliance with the Association of British Pharmaceutical Industry (ABPI) code. The ABPI code requires disclosures of all transfers of value to healthcare organisations (HCOs), healthcare practitioners (HCPs) and other relevant decision makers in the year previous to year of disclosure. This note will report on transfers of value made in the period January 1st 2021 and December 31st, 2021.

Identification of Transfers of Value:

To identify all transfers of value, all payments for Grants, Sponsorship, Donations and Consultancy fees made in 2020 by Leadiant Biosciences UK were screened, and those fitting the requirements of transfers of value were included. These were cross-checked against the compliance approval system in the company (Veeva) for the period between 1st of January 2021 and 31st December, 2021.

Data Privacy

Leadiant obtains consent from individual HCPs and HCOs prior to disclosing individual transfers of value made to them. The consent is obtained at the time of signature of the agreement and forms a standard term. Transfers of Value to HCPs that consented to disclosure are reported individually. Where consent was withheld, the transfers of value were reported as aggregate.

Transfers of Value

All transfers of value specified in our disclosure are denominated in pounds sterling. If the original payment was made in euro, we have converted the amount into GBP using the

foreign exchange rate on closing on the day of payment. Amounts disclosed in GBP may therefore vary from the exact amount paid in the local currency. Where a transfer of value is made to a healthcare professional indirectly via a healthcare organisation, where possible Leadiant aims to disclose the transfers of value made to the healthcare professional that the payment benefits, as per the ABPI code. Where a contract for activities covered for a particular transfer of value runs over multiple years and thus disclosure cycles, Leadiant aims to disclose any transfer of value in the year that it was actually paid. Leadiant discloses the exact amount paid to the HCP, HCO or ORDM. This may include VAT, if VAT is included on the invoice. All transfers of value are disclosed on the Disclosure UK portal, irrespective of where the recipient of the transfer of value resides.

Payments made in 2021

No payments to individual HCPs were identified for the year 2021.

No Donations were identified for the year 2021.

Grants and Sponsorships given to HCOs were to support organization of scientific congresses, meetings, and research. Installment payments for two multi-year contracts have disclosed in 2021. In total, there were four grants paid in 2021 to Health Care Organizations (HCOs), one based in EU. All grants were paid to further research. The total amount for grants was £180,535.74. Two conferences were supported with a total transfer of value amounting to £8,014.20.
