

26th March 2019

Methodological Note

To identify all transfers of value, all payments for Grants, Sponsorship, Donations and Consultancy fees made in 2018 by Leadiant Biosciences UK were screened, and those fitting the requirements of transfer of value were included. This was cross-checked against the compliance approval system in the company for the period between 1st of January, 2018 and 31st December, 2018.

Consents for disclosure were confirmed after identification and the amount received confirmed with the Healthcare professionals (HCPs)/Healthcare organizations (HCOs). All transfer of value specified in our report are denominated in pounds sterling. If the original payment was made in euro sterling, we will convert the amount into pounds sterling using the 2018 average exchange rate of 0.88:1.

For HCPs, the fee for services and travel and accommodation were listed. In total, three non-UK and one UK consultancy payments are disclosed by the company and one of Non-UK consultants was disclosed as aggregate as we did not receive the confirmation of consent for disclosure. The total consultancy fee for service in 2018 was £8729.6 (€9920) exclusive of VAT.

No Donation was identified. Grants and Sponsorships given to HCOs were for scientific congresses, meetings and researches. All research and development related activities including unsolicited requests for investigator initiated trials (IITs) are disclosed in the aggregate. One IIT is included for multi-year contract and payment in 2018 was the first payment. There were eight grants/sponsorships paid in 2018 to Health Care Organizations (HCOs) based in UK/EU, total amount is £58,885.8 (£33,805 and €28,500) exclusive of VAT.
